

2020 Audio Visual Conference Room Packages

Fluid Sound is driven by the mission to make audiovisual (AV) as easy as it can and should be. Whether it's a seamless control center or an impressive video wall, we strive to provide the absolute best experience for the AV system owner and end user.

“Not a luxury, a necessity.”

Employees across Southern California are transitioning back into the office, and the way businesses operate is changing. Video conferencing allows for safe and easy collaboration, whether they're working from home, in the local office, or across the country.

Fluid Sound integrates top-of-the-line video conferencing technology that meets both your budget and your needs. Whether you operate through Windows, iOS, or Android, our custom packages cater to your specific circumstance.

Our technology works alongside your favorite videoconferencing platforms (i.e. Microsoft Teams, Zoom Video, WebEx, etc....) We provide one-touch control panel interfaces that are easy to use and meet all your needs.

Choose which system best coincides with your company, and we'll customize the features to fit your specific case.

System One:

Portable Video Conference and Wireless Presentation

Budgetary Cost: \$ 7,500
